Responsibility and opportunity to lead and drive the projects is given. Stable long-term career roadmap for proven team members is our goal, so as yours.

We invest in excellence, offer excellence and ask for excellence.

We are pleased to offer a full-time position for:

Project Manager

You should have:

- Education level: University Degree or relevant professional experience
- System and organization-building thinking
- At least 2 years of experience in coordinating a development/engineering team.
- Proficiency in English, both written and spoken

You should be able to do the following:

- Coordinate a (sub)project team to be able to deliver
- Plan and coordinate activities and schedules on a project
- Prepare reports, present them and communicate directly to various stakeholders
- Apply Scrum and agile practices in your daily work
- Product marketing and sales support

This is a great opportunity to participate on a project team of engineers involved in the development of the technology which will shape the sensor industry in the next 5 years. You would be working with extraordinary engineers, very good and hard-working guys. They are not easy to manage, but once they feel you commit to this story the same as they, you are in and they will give you all they can to help you to deliver.

We offer working in a dynamic environment in a team with good engineers, with an opportunity to influence the technology of the future and be part of it. Including attractive salary packet with private pension and health insurance, bonus, highly paid business trips etc.
