

**NOVELIC** is a high-tech company developing products in the fields of sensors, industrial electronics and wireless communications. We cover all subsystems of a modern electronic product under one roof: Embedded HW/FW, FPGA, ASIC, RF IC, etc. Since 2013 we have quickly grown, our working environment is dynamic and creative with excellent working conditions Responsibility and opportunity to lead and drive the projects is given. Stable long-term career roadmap for proven team members is our goal, so as yours.

**We invest in excellence, offer excellence and ask for excellence.**

We are proud to offer a full-time position to strengthen our Embedded Group for:

## **PLC programmer**

### **Your Profile:**

- At least 3 years of experience in PLC programming (FUP / ST), ideally with Codesys
- Knowledge of the tool Subversion (version management)
- Knowledge of TFS (Team Foundation Server) is an advantage
- knowledge of Ethernet and CAN protocols is a plus
- knowledge in WPF-based programming (.Net) is a plus

### **Common Skills:**

- Education level: Bachelor or Master's Degree
- Experience in high-scale projects with reporting, presentations, conferences, etc
- Proficiency in English, level B2 at least

### **We Offer:**

- Working in a good team with great engineers.
- Challenging R&D and industrial world-class projects.
- Attractive salary package: salary, bonus, private pension, highly paid business trips.

This position includes writing and testing PLC programs for machines and equipment and providing technical support in resolving equipment and process issues, always taking care about safety protocols and guidelines. Collaboration with other teams and programmers to ensure efficient functioning of machines and equipment is essential.
